Certificates

ANSI/BIFMA X5.1-2017 (R2022)

Tested and certified to meet internationally recognised standards for general-purpose office chairs, validating structural integrity, durability, and safety under rigorous load and cycle testing.

Greenguard GOLD

Meets stricter chemical emission limits, certified safe for use in sensitive environments such as schools and healthcare facilities.

Sustainability

We are far from shy in sharing our progress and believe transparency is the best practise, especially when it comes to the intimidating topic of sustainability. That's why we have created an open space to share our research, steps and new targets within this field. One step at a time to make meaningful change.
